Work Experience

Software Engineer I

Karachi, Pakistan

Subject — May 2025 – Present

- Led production infrastructure migration from Azure to Hetzner for systems serving ~60K users, managing backend, frontend, databases, and environments end-to-end.
- Built and maintained scalable web applications using React.js and Next.js, delivering high-performance, production-ready user experiences.
- Designed CI/CD pipelines (Azure DevOps, GitHub Actions) and managed cloud infrastructure, monitoring, reverse proxy, and automated TLS.
- Developed backend services with Node.js/NestJS and PostgreSQL/MongoDB, implementing RBAC, database migrations, and high-availability setups.

Front-End Engineer

Karachi, Pakistan

MOD Ventures — Aug 2024 – March 2025

- Built and shipped production web applications using React.js and Next.js, including complex admin dashboards and data-driven SPAs.
- Converted Figma designs into pixel-perfect, responsive interfaces with a strong focus on UX, accessibility, and consistency.
- Designed reusable UI component systems and managed client-side state using Redux, Zustand, and Context API.
- Integrated REST APIs and implemented secure authentication flows (OAuth, Google Auth, token-based), optimizing frontend performance and reliability.
